SUMMARY

Master's student in Biostatistics (Data Science Pathway) at the University of Washington with hands-on experience preparing and labeling data for machine learning models. Driven by curiosity and passionate about applying statistical reasoning to scientific problems that improve people's health. Seeking a summer 2027 internship in statistics.

EDUCATION

University of Washington September 2026 – March 2028
Master of Science in Biostatistics, *Data Science Pathway*
Saint Louis University August 2019 – May 2023
Bachelor of Science in Biology, Summa Cum Laude, *Concentration in Cell Biology & Physiology*, Minor in Women's & Gender Studies; GPA: 3.97/4.0

Relevant Upcoming Coursework: Biostatistics I&II, Statistical Inference for Biometry I&II, Statistical Computing for Biomedical Data Science (Python), Longitudinal and Multilevel Data Analysis, Machine Learning for Biomedical and Public Health Big Data

Relevant Experience

Office Manager July 2024 – August 2026
Law Offices of Lance Fryrear, Lynnwood, WA
- Analyzed financial data and identified trends to reduce accounts receivable by 10%
- Trained staff and served on leadership team setting yearly and long-term goals

AI Beta Tester (Contract role) March 2024 – July 2024
ModMed, Boca Raton, FL
- Labeled 200+ medical terms across 60+ patient transcripts to improve NLP accuracy
- Collaborated with a 25-person team of doctors, engineers, IT, and project managers

Campus Kitchen Volunteer (Shift Lead, VP of Recruitment) March 2021 – July 2024
Saint Louis University, Saint Louis, MO
- Led food recovery saving ~1,000 pounds of food weekly; recruited and coordinated volunteers
- Prepared and delivered meals for 600+ individuals weekly, including senior citizens, providing nutritional and social support

Medical Assistant May 2023 – April 2024
Forefront Dermatology, Saint Louis, MO
- Processed and verified 1000+ prescriptions while maintaining accuracy and patient confidentiality
- Trained and supervised 4 medical assistants, enhancing team efficiency and consistency

Undergraduate Research Assistant May 2021 – August 2021
Saint Louis University, Saint Louis, MO
- Conducted PCR and electrophoresis experiments supporting DNA repair research; maintained records ensuring reproducibility

Skills

Technical & Quantitative – R (Intermediate); Python (coursework in progress); Excel; EHR systems; HIPAA training; data labeling and quality review
Laboratory – PCR, electrophoresis, microscopy, data recording
